

## AT THE HEART OF THE WORK (SF)

Sept 26, Nov 9, Jan 18, Mar 22, May 18 | Bay School of SF

However numerous and over-lapping the domains of your work, at the very heart of it is you – and not merely your vision, skills, and strategies, but your person.

A premise: every gesture and every context of your professional life is personal, and if job performance is indeed at times performative, you are both more effective and more balanced in your work when you authentically inhabit yourself.

This year's Experienced Administrators' Group invites an exploration of who and how you are in your job – how you know yourself, where you're agile and comfortable, where you're uncertain and vulnerable, why and what to do about it.

Over the course of five sessions, join with others whose primary work is with teachers and other adults in Bay Area independent schools to identify and to practice what you need in order to be more fully and effectively you in your professional life.

Register early! This program is limited to 12 participants.
