

DEVELOPING YOUR LEADERSHIP CAPACITY (LA)

Oct 24, Nov 28, Jan 23, Mar 13 | Curtis School

This new, four-part seminar focuses on the power of active mentoring, hands-on coaching, personal connections, and regular reflection. Using the latest research and best practices, from the fields of education and business, this program supports its participants in demystifying and developing the key skills and habits of becoming and maintaining effective roles in leadership. The participants will deepen their own leadership capacity by exploring leadership style, school culture, communication, diversity and innovation, personal reflection, meaningful connections, and data-driven decision-making. A key theme throughout will be the power of mentoring and coaching, expanded upon by guest speakers, case studies, the facilitators' experiences, and the participants' strengths, themselves.

This program is designed for aspiring and current educational leadership, in both academic and non-academic (admissions, communications, development, human resources, etc.) roles.
