

IMPACT LAB SERIES

EMPOWERING STUDENTS TO BECOME AGENTS OF CHANGE

How do we provide opportunities for our students to learn deeply while making a lasting impact on their communities and the world?

Join us in tackling this question and more through The Impact Lab Series, co-created by the CATDC and educators from The Scott Center for Social Entrepreneurship at the Hillbrook School; The San Francisco Friends School; and the Center for Awareness, Compassion and Engagement at Castilleja School. Each Impact Lab session will provide opportunities for educators from around the Bay Area to learn with and from each other, develop new skills and new ways of thinking, and make connections with others engaged in this work. Applying principles of design thinking and approaches to service learning as well as civic engagement, participants will develop fluency in systems that create change in order to build community and sustain authentic partnerships.

REGISTER FOR ALL FOUR SESSIONS AND SAVE!
